# Valencia

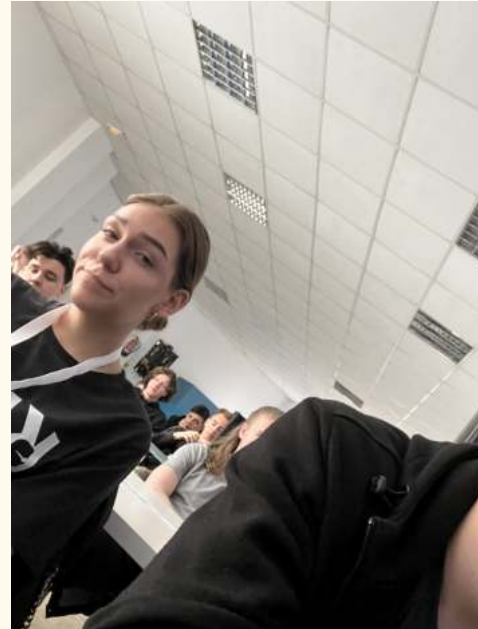

Valencia is the third largest city in Spain after Madrid and Barcelona. The city was beautiful and, to our surprise, really clean. The people were very friendly and despite the fact that most of them did not speak English, they were very helpful.

# Our internship

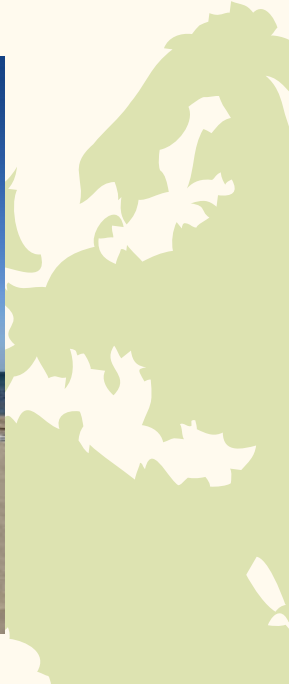

We all worked together in an IT company called „U Make IT“, focusing on graphic design. We worked in groups for 4 hours every day in Photoshop and also we learned how to to edit videos.

We first visited the beach, where we tried the fresh sea.

01

## Playa El Cabanyal

We went to the beach almost every day to play volleyball or just walk around.

04

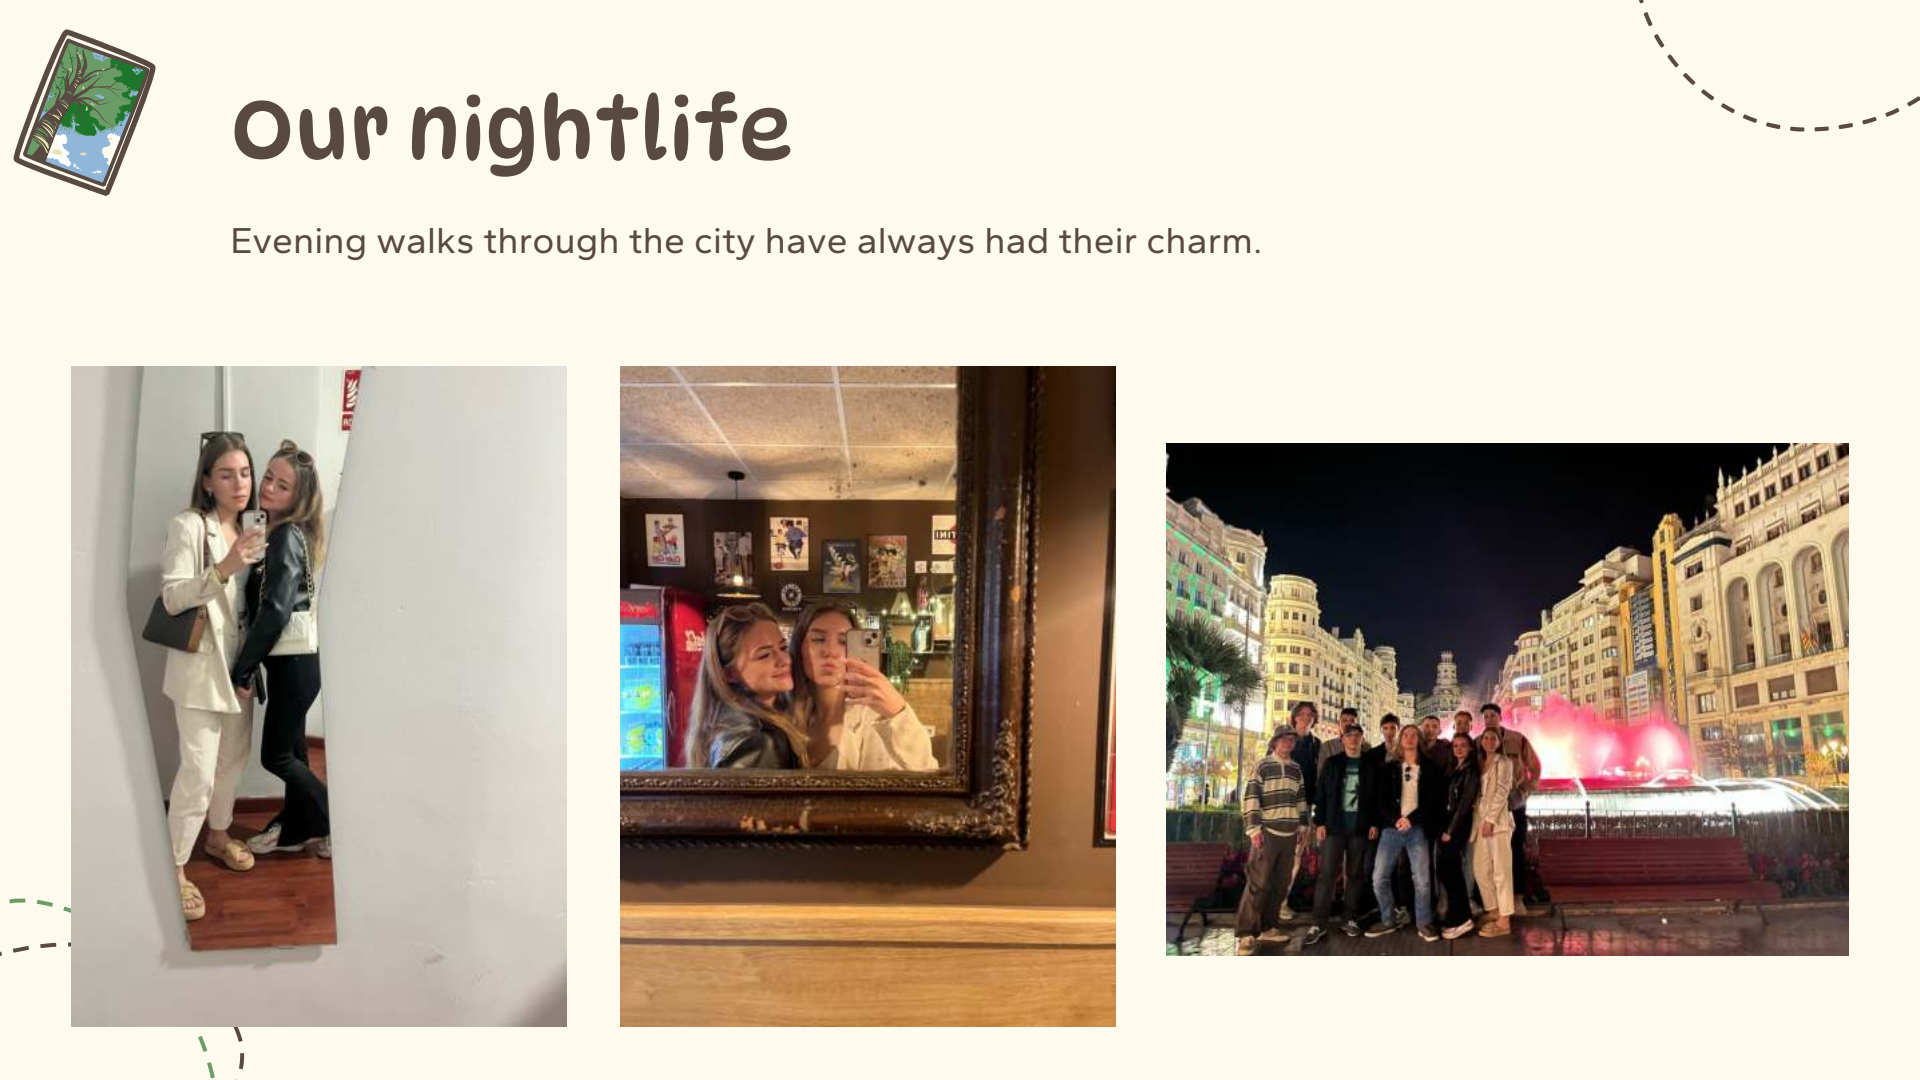

# Albufera de València

The water in this lagoon used to be salty, but it is now fresh water. After this beautiful trip, we had lunch together in a restaurant with excellent food.

# Our nightlife

Evening walks through the city have always had their charm.

# Food

We had breakfast, lunch and dinner provided by catering, which brought our food directly to the apartment. We didn't always like everything, but we still ate enough and rate it as great.

# General impression

We all really liked Spain, we had a lot of experiences and we have beautiful memories. It brought us together a lot and we are grateful that we had the opportunity to go there. In addition to improving our English, we learned a lot of Spanish words and also went through a Spanish lesson.

Thanks for  
paying  
attention!
